Kit Johnstone Tyabandha, Ph.D.

I having had no time to do better a section than this some Thai trafficking terrorists trying to expel me from house and home and from the UK, I will try to make a grammatical dictionary a separate section. Most words were given in their pointed form, only some were unpointed. For example, the word for 'bottle' unpointed is *zagageht*, and pointed *zugāgaht*; the word for 'big' unpointed *kebir*, and pointed *kabīr*.
